## PHOTOGRAPHY

### Pricing Structure

## Wedding Pricing

**Prices start from £1200**

### **What you get for your money:**

You get a CD of high-resolution files for print and low-resolution for social media. Royalty free there are usually 200-300 images of the day all colour with some converted to black & white.

I attend the Church rehearsals if applicable. This gives me an ideal opportunity to clarify with the Vicar where I can position myself to take photos leaving less to chance on the day. It is also a good chance to meet your principle guests.

Most weddings are a full day from Bride preparation until just after the first dance. I usually stay around for 30 minutes after the first dance to capture those images of your guests and family dancing together.

Each wedding is unique. Please feel free to contact me to arrange a consultation so we can discuss your requirements in detail.
